2023 SPONSOR OPPORTUNITIES

THE LEADER IN EXPERIENTIAL LEARNING FOR OVER 50 YEARS

Who is SEE?

The Society for Experiential Education (formerly the National Society for Experiential Education) is the premier professional association for experiential educators across the globe. Our members represent hundreds of institutions. The Society brings together educators, business, and community leaders to create and sustain a great variety of experiential learning opportunities, such as internships, micro-experiences, service learning, global experience, and more.

Why You Should Be A Sponsor

Sponsorship is about supporting the society, the field, and the diverse scholar/practitioners who do the work. As a sponsor, you will connect with faculty and experiential education professionals in career services, internships, cooperative education, student development, service learning and beyond.

Sponsorship gives you visibility among a growing population of experiential educators. You are not simply able to connect with individuals who attend our programs, but you then have access to the people and the needs of the much larger experiential education ecosystem to which these individuals are connected.

Exhibitors

All sponsors have the opportunity to be exhibitors at our annual conference (**September 25-27, 2023 in Orlando, FL**). Exhibiting is magical - you get to show off your product/service and learn from potential customers about their needs in an informal way. Conference exhibitions are a fabulous way to meet potential new clients you may not have on your radar from your market research.

Custom Sponsorships

If you can't find a level that meets your needs and you have an idea you'd like to suggest, please contact us!

**Please review the sponsorship levels on the nextpage.
For additional information, contact see@talley.com.**
