

The membership directory contains proprietary and confidential information that belongs to the Society for Experiential Education (SEE). It is designated to be used for personal, noncommercial use only by its members and funding agencies. SEE retains all ownership and rights to this membership directory. SEE's policy states that only the president can authorize mass emailing of its members. Any commercial use or other solicitation is strictly prohibited. This system is not intended for large scale harvesting of information. To prevent abuse, the system is set to return results only when the number of matching members is 25 or less. Searches returning greater than 25 matching members will have to be refined so that they return less. The searchable directory is updated daily.

If performing a search, you are hereby agreeing to these provisions. [Click Here](#) to Search
